

# NS International Bilateral Activities in 2021

## INTRODUCTION

*The IFRC is preparing its 2021 Annual Report and would like to expand the focus on the IFRC network and its work. To do this, we would like to ask the National Societies working internationally to provide information on their expenditure and people reached for the different countries where they provide support.*

*International bilateral activities are those activities a NS supports in another country. The support may take the shape of staff, goods and or services and may be provided as part of an emergency operation or a longer term programme. Bilateral activities are coordinated with the host NS and the resources required for the bilateral support do not pass through the IFRC Secretariat.*

*Your data will help to illustrate both the solidarity and effectiveness of the network, while providing an opportunity for increased visibility for National Societies with donors, who are the main audience of the annual report.*

*Thank you for your contribution.*

*For more information, please access the User Guide [here](#) or contact [FDRS@IFRC.org](mailto:FDRS@IFRC.org).*

## National Society Information
